

CSI Evidence

I can identify different types of evidence.
I can explain how evidence is used to support or refute ideas.

Describe the evidence you find at each workstation, then underline the correct word to show whether the evidence was used to support or refute ideas.

Use these words to help you describe your ideas.				
soil	fingerprints	DNA	fibres	dye
match	compare	different	prove	evidence

Workstation 1:

What evidence is the CSI technician analysing?

The CSI technician's evidence supports/refutes the ideas of the police detectives.

Workstation 2:

What evidence is the CSI technician analysing?

The CSI technician's evidence supports/refutes the ideas of the police detectives.

Workstation 3:

What evidence is the CSI technician analysing?

The CSI technician's evidence supports/refutes the ideas of the police detectives.

Workstation 4:

What evidence is the CSI technician analysing?

The CSI technician's evidence supports/refutes the ideas of the police detectives.
