Mathematics:

Our learning objective this week is to sort different objects into sets such as colour, size or shape.

Literacy:

This week in literacy we are learning about families. We will be sharing story books about different families. Can you draw a picture of yourself and your family?

Homework: Please share your child's library book (they will be changed every Tuesday).

Other Areas of Learning:

- **Expressive Arts and Design:** Can you make an autumn tree and add autumn coloured leaves?

- **Communication and Language:** Can you talk about your family, friends and people who are important to you? How do they make you feel? What do you enjoy doing together?
- **PSED:** Can you play a game with at least 1 other person and practise the importance of sharing and taking turns?
- **Physical Development:** Can you experiment moving around in different ways such as hopping, jumping, skipping, walking, running, crawling and slithering?
Can you colour in a picture to keep strengthening your fine motor skills?
- **Understanding the World:** Can you explore and investigate different autumn objects which can be found outside such as leaves, conkers, pinecones and sticks?
Can you make yourself, your family or your friend out of the different autumn objects?
