

# Supertato

## Home Learning Challenge

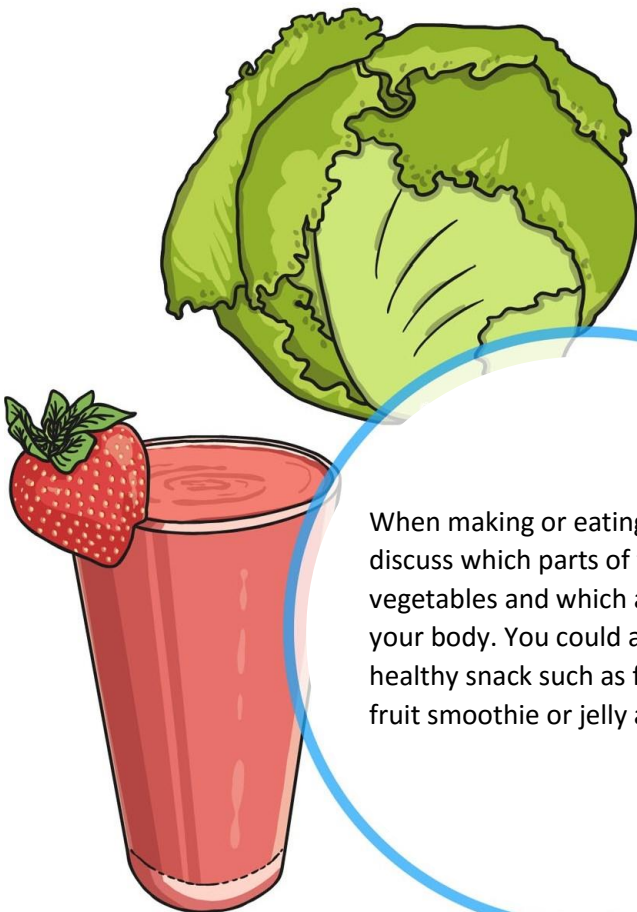

Draw a face on a potato to make your own Supertato! Take Supertato around your house to help out with some of the jobs, such as tidying your bedroom and putting away the dishes. What other helpful things can he do?

Talk about what your name would be if you were a superhero and what special powers you would have. You could draw a picture and design a mask.

When making or eating a meal, discuss which parts of the meal are vegetables and which are healthy for your body. You could also make a healthy snack such as fruit salad, a fruit smoothie or jelly and fruit.

Make a warning poster about the Evil Pea. Describe how he looks and what to do if you see him.
