Admissions Policy

The Nursery and Reception classes in our school have been developed with the educational needs of the three to five year olds as their priority. (They deliver the Foundation Stage of the Curriculum). Children enter nursery in the term after their third birthday for five half days per week. During their time as half day pupils they will experience a detailed and highly developed curriculum tailored to the needs of the very young child.

Their stay at school will be extended to full time i.e. five full days during the September following their fourth birthday. The staff will provide an extended curriculum in line with the government's Early Learning Goals and the National Curriculum.

With the excellent environment, fluidity of movement and highly structured learning situations we feel your children will experience a very favourable introduction to their education. Our dedicated, well trained and highly experienced staff enthusiastically provide quality education for your young children.

Any families wishing to register their child for a place in the unit after their third birthday are most welcome to visit our school to experience the warm and open welcome offered to all our families.

In our Early Years Classes, and throughout the school, our aim is quality education without compromise.

In the case of over subscription, criteria for admission will be applied in line with local Education Authority's Admissions Policy.

Admission numbers for entry to Reception for 2017-18 is 30

September 2018
